

Project Demo Planning

Date	30 September 2026
Team ID	SWTID-2026-7960
Project Name	Import Data using Transform Maps (Spreadsheet) in ServiceNow
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section / Task Name	Description / Activity	Duration (mins)	Responsible Member
1	Creation Of Spreadsheet & Tables	Explain spreadsheet preparation (.csv/.xlsx) and custom target table creation (u_employee_test).	1 min	Parvathi P (PP)
2	Create Importset Table & Transform Map	Demonstrate loading data into the Import Set staging table (u_employee_import) and setting up Transform Maps.	1 min	Manjula K (MK)
3	Enable Coalesce & Transform Data	Show mapping assist configuration, enabling Coalesce on Employee ID, and executing the transformation process.	2 mins	Jayalakshmi S (JS)
4	Inserting New Data & Reports	Validate inserted/updated records in the target table and showcase individual analytics reports.	1 min	Yuvasri T (YT)
5	Adding Reports to Dashboard	Demonstrate consolidating the reports into the centralized Employee Analytics Dashboard.	1 min	Kalaiyarasi K (KK)

Demo Flow Summary:

Step	Activity	Notes / Key Highlights
1	Introduction & Problem Statement	Highlight the inefficiencies of manual data entry and introduce the ServiceNow solution.
2	Solution Overview	Walk through the multi-layer architecture from external spreadsheet source to target table persistence.
3	Live Feature Demonstration	Show the end-to-end workflow: loading data, setting up transform maps, applying Coalesce, and running transformations.
4	Q&A Session	Answer technical queries regarding duplicate record handling, transform scripts, and dashboard reporting.
